Github: github.com/uliton

I have a lot of experience in different industries. Auto services, sales, operational management, agricultural sector, private enterprise. All this experience has helped me achieve many cool projects with good results. I'm sure it will help me find a common language within a team and find solutions in difficult situations. I also know how to look at the business as a whole, so that it gives me the opportunity to offer complex solutions.

I have over 2000 hours of coding and my main stack consists of React, JavaScript, HTML and CSS. And I'm also open to learning Vue, React Native, Angular and any other technology.

SKILLS

Working with: HTML, CSS, JavaScript, React, TypeScript, Git, NPM, ESLint, Sass(SCSS), Redux, REST API, SQL, classNames, localStorage, Routing, SVG, JSON

Frameworks: Material Ui, Bootstrap, Bulma

Tools: AWS, Figma

Methodologies: BEM

English level: Intermediate

Basic understanding of OOP

EDUCATION

Graduated from Kyiv National Economic University (KNEU) in 2004, specializing in economics and entrepreneurship with advanced English studying, got a bachelor's degree.

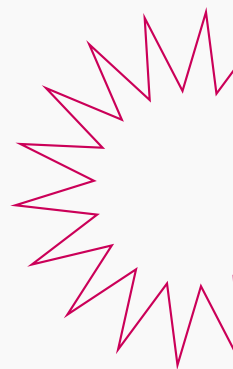

Received a master's degree in consulting in 2005.

Passed 3-months English summer school in Great Britain in 2002.
